

Direct Billing

At Integrative Naturopathic Medical Centre, your health and wellness are our top priorities. We are pleased to offer direct billing through Telus Health eClaims, making your visits more convenient and hassle-free.

What is Direct Billing?

Direct billing is a convenient service that allows you to submit your insurance claims electronically at the time of your visit. Instead of paying upfront and waiting for reimbursement, we will handle the billing process directly with your insurance company through Telus Health eClaims. This service is available to eligible patients who have extended health coverage or other applicable insurance plans.

How It Works

- 1. Book an Appointment:** Schedule your appointment with one of our experienced practitioners.
- 2. Provide Insurance Information:** Before your appointment, make sure to provide us with your up-to-date insurance information, including your insurance company name, policy number, and group number.
- 3. Direct Billing at Your Visit:** When you arrive for your appointment, simply present your insurance card or information. We will process your claim directly with your insurance company through Telus Health eClaims.
- 4. Payment (if applicable):** If there are any remaining fees not covered by your insurance plan, you will be responsible for settling the balance at the end of your visit.
